2 Compulsory and systematic language development
Early provision of compulsory language courses in combination with practical visits/internships at companies

3 Scaling of careers counselling
Widespread careers counselling, including through digital services, especially for the 15–30 age group

4 Skills identification and profile building
Stepping up the identification of technical and interdisciplinary skills through early screening and agile profile sharpening

5 Modular partial qualifications and further training
Provision of modular training (partial qualifications, combining theory and practice)
