

# Humanitäre Sprechstunde

DEPARTMENT OF HEALTH, CITY OF FRANKFURT/MAIN, GERMANY

DR. PETRA TIARKS-JUNGK

# African consultation hours

**since 13.12. 2001**

providing:

- anonymous medical treatment
- psycho – social support

for:

- undocumented migrants from Africa
- once a week on thursdays

# Humanitarian consultation hours

**since october 2009**

- for all nationalities:  
mainly undocumented migrants  
but also citizens of EU member states without health insurance
- mondays and thursdays

# Ambulant delivery programme prenatal healthcare

since 2007/ 2008

- **ambulant delivery programme**

increasing number of mainly undocumented migrant women without access to healthcare during pregnancy

- in Frankfurt hospitals for 600 €
- in partnership with two gynaecologists

# Birth registration

## **„Mutterpass“ (mother passport)**

basic document of great importance:

- 3 months before birth – protection against deportation
- access to birth registration
- birth registration within 2 days after birth by hospital administration

# Postnatal healthcare

**since january 2012**

## **Humanitarian consultation hours for children**

surveillance of babies/children health

- to secure normal physical and mental development

in addition:

- vaccination programme
- Instruction of mothers in basic healthcare:  
nutrition, hygiene, emotional interaction

# Data

**in 2013:**

## **Humanitarian consultation hours:**

639 patients with 1911 consultations

## **Ambulant delivery programme:**

56 women

## **Humanitarian consultation hours for children:**

398 children with 909 consultations

# Finance

- **location and personnel:**  
provided by health department
  
- **medical equipment, medicine, vaccine:**  
social services department  
yearly about 90.000 € – 100.000 €

## Key challenges we face

- **coordination office**

to improve interaction of Frankfurt hospitals, health department, NGO's which provide health care and the university with its student run free clinic: StuPoli.

- **foundation for fundraising**

for unexpected medical treatments in certain cases
